

## **TTC Muhanga - College Overview**

TTC Muhanga, officially established on February 2, 2010, is a government-supported teacher training college managed in partnership with Rwanda's Ministry of Education and the Anglican Diocese of Shyogwe. Situated in Mubuga Cell, approximately 4 km off the main highway and about 8 km from Muhanga District headquarters, it serves as a pivotal institution in the Southern Province. The college currently enrolls around 625 students-roughly 400 female and 225 male-across four specialized departments: Modern Languages, Science & Mathematics, Social Sciences, and Early Childhood Education.

TTC Muhanga is guided by the motto "Knowledge, Success and Unity," and employs a learner-centred teaching methodology training all tutors in this progressive approach. Its campus includes 12 classrooms, a computer lab, a modest library, teacher resource rooms, dormitories, a dining hall, and kitchen facilities. Practical learning is supported by vegetable and fruit gardens and workshops for creating teaching aids from local materials.

The college offers a broad curriculum that includes core subjects (Mathematics, Physics, Biology, Chemistry), languages (English, French, Swahili), Psychology, Entrepreneurship, Fine Arts, History, Geography, and Music. Over time, TTC Muhanga has undergone infrastructure expansion, including new facilities commissioned by the State Minister in July 2010. Today, it stands as a dynamic teacher training institution committed to producing skilled educators equipped to meet Rwanda's evolving educational landscape.
